# **SAFETY DATA SHEET**

BG Ultra Guard<sup>™</sup> Heavy Duty

## 1. Product and company identification

| Manufacturer                | : BG Products Inc.<br>701 S. Wichita Street<br>Wichita, KS, 67213, USA<br>www.bgprod.com |
|-----------------------------|--|
| Relevant identified uses of | of the substance or mixture and uses advised against                                     |
| MSDS #                      | : 752  |
| Validation date             | : 5/31/2017  |
| Responsible name            | : Kolin Anglin, Environmental Coordinator<br>316-265-2686<br>msds@bgprod.com             |
| In case of emergency        | : (800) 424-9300 (CHEMTREC)  |
| 2. Hazards identification   |  |
|                             | • While this material is not considered bazardous by the OSHA Hazard Communication       |

| OSHA/HCS status                            | : While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product. |
|--|--|
| Classification of the substance or mixture | : Not classified.  |
|  | Percentage of the mixture consisting of ingredient(s) of unknown oral toxicity: 90.3%<br>Percentage of the mixture consisting of ingredient(s) of unknown dermal toxicity: 90.3%<br>Percentage of the mixture consisting of ingredient(s) of unknown inhalation toxicity: 90.<br>3%                          |
| GHS label elements                         |  |
| Signal word                                | : No signal word.  |
| Hazard statements                          | : No known significant effects or critical hazards.  |
| Precautionary statements                   |  |
| Prevention                                 | : Not applicable.  |
| Response                                   | : Not applicable.  |
| Storage                                    | : Not applicable.  |
| Disposal                                   | : Not applicable.  |
| Hazards not otherwise<br>classified        | : None known.  |

## 3. Composition/information on ingredients

| Substance/mixture                   | 1 | Mixture         |
|-------------------------------------|---|-----------------|
| Other means of                      | ÷ | Not available.  |
| identification                      |   |                 |
| <b>CAS number/other identifiers</b> |   |                 |
| CAS number                          | ÷ | Not applicable. |
| Product code                        | : | 752             |
|                                     |   |                 |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

## 4. First aid measures

| Description of necessary fi   | rst aid measures  |
|-------------------------------|---|
| Eye contact                   | <ul> <li>Immediately flush eyes with plenty of water, occasionally lifting the upper and lower<br/>eyelids. Check for and remove any contact lenses. Get medical attention if irritation<br/>occurs.</li> </ul>   |
| Inhalation                    | : Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.   |
| Skin contact                  | <ul> <li>Flush contaminated skin with plenty of water. Remove contaminated clothing and<br/>shoes. Get medical attention if symptoms occur.</li> </ul>  |
| Ingestion                     | : Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur. |
| Most important symptoms/      | effects, acute and delayed  |
| Potential acute health effe   | <u>cts</u>  |
| Eye contact                   | : No known significant effects or critical hazards.   |
| Inhalation                    | : No known significant effects or critical hazards.   |
| Skin contact                  | : No known significant effects or critical hazards.   |
| Ingestion                     | : No known significant effects or critical hazards.   |
| Over-exposure signs/sym       | <u>ptoms</u>  |
| Eye contact                   | : No specific data.   |
| Inhalation                    | : No specific data.   |
| Skin contact                  | : No specific data.   |
| Ingestion                     | : No specific data.   |
| Indication of immediate me    | dical attention and special treatment needed, if necessary  |
| Notes to physician            | <ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large<br/>quantities have been ingested or inhaled.</li> </ul>   |
| Specific treatments           | : No specific treatment.  |
| Protection of first-aiders    | : No action shall be taken involving any personal risk or without suitable training.  |
| See toxicological information | on (Section 11)   |
|                               |   |

## 5. Fire-fighting measures

| <u>Extinguishing media</u>                     |   |
|--|---|
| Suitable extinguishing media                   | : Use an extinguishing agent suitable for the surrounding fire.   |
| Unsuitable extinguishing media                 | : None known.   |
| Specific hazards arising<br>from the chemical  | : In a fire or if heated, a pressure increase will occur and the container may burst.   |
| Hazardous thermal<br>decomposition products    | : No specific data.   |
| Special protective actions for fire-fighters   | <ul> <li>Promptly isolate the scene by removing all persons from the vicinity of the incident if<br/>there is a fire. No action shall be taken involving any personal risk or without suitable<br/>training.</li> </ul> |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.   |

## 6. Accidental release measures

| Personal precautions, protective equipment and emergency procedures |  |  |
|---|--|--|
| For non-emergency<br>personnel                                      | : No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Put on appropriate personal<br>protective equipment.   |  |
| For emergency responders  | : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".  |  |
| Environmental precautions   | : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).  |  |
| Methods and materials for containment and cleaning up               |  |  |
| Small spill   | : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.  |  |
| Large spill   | : Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |  |

## 7. Handling and storage

#### Precautions for safe handling

| Protective measures  | : Put on appropriate personal protective equipment (see Section 8).  |
|--|--|
| Advice on general occupational hygiene                             | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.  |
| Conditions for safe storage,<br>including any<br>incompatibilities | : Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use. |

## 8. Exposure controls/personal protection

#### **Control parameters**

| Occupational exposure limits<br>None. |   |
|---------------------------------------|---|
| Appropriate engineering :<br>controls | Good general ventilation should be sufficient to control worker exposure to airborne contaminants.  |
| Environmental exposure :<br>controls  | Emissions from ventilation or work process equipment should be checked to ensure<br>they comply with the requirements of environmental protection legislation. In some<br>cases, fume scrubbers, filters or engineering modifications to the process equipment<br>will be necessary to reduce emissions to acceptable levels. |
| Individual protection measures        |   |

Date of issue/Date of revision

## 8. Exposure controls/personal protection

| Hygiene measures       | : Wash hands, forearms and face thoroughly after handling chemical products, before<br>eating, smoking and using the lavatory and at the end of the working period.<br>Appropriate techniques should be used to remove potentially contaminated clothing.<br>Wash contaminated clothing before reusing. Ensure that eyewash stations and safety<br>showers are close to the workstation location. |
|------------------------|---|
| Eye/face protection    | : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.   |
| Skin protection        |   |
| Hand protection        | : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.   |
| Body protection        | <ul> <li>Personal protective equipment for the body should be selected based on the task being<br/>performed and the risks involved and should be approved by a specialist before<br/>handling this product.</li> </ul>   |
| Other skin protection  | <ul> <li>Appropriate footwear and any additional skin protection measures should be selected<br/>based on the task being performed and the risks involved and should be approved by a<br/>specialist before handling this product.</li> </ul>   |
| Respiratory protection | <ul> <li>Based on the hazard and potential for exposure, select a respirator that meets the<br/>appropriate standard or certification. Respirators must be used according to a<br/>respiratory protection program to ensure proper fitting, training, and other important<br/>aspects of use.</li> </ul>  |

## 9. Physical and chemical properties

| -                                 |   |
|-----------------------------------|---|
| Physical state                    | : Liquid.   |
| Flash point                       | : Open cup: 202°C (395.6°F)                                       |
| Auto-ignition temperature         | : Not available.  |
| Flammable limits                  | : Not available.  |
| Color                             | : Amber.  |
| Odor                              | : Characteristic.   |
| рН                                | : Not available.  |
| <b>Boiling/condensation point</b> | : Not available.  |
| Melting/freezing point            | : Not available.  |
| Specific gravity                  | : 0.8805  |
| Vapor pressure                    | : Not available.  |
| Vapor density                     | : Not available.  |
| Odor threshold                    | : Not available.  |
| Evaporation rate                  | : Not available.  |
| Viscosity                         | : Kinematic (40°C (104°F)): 1.785 cm²/s (178.5 cSt)               |
| Solubility                        | : Insoluble in the following materials: cold water and hot water. |
| VOC content                       | : <0.1 % (w/w)  |
| Aerosol product                   |   |
|                                   |   |

## 10. Stability and reactivity

| Reactivity                            | : No specific test data related to reactivity available for this product or its ingredients.           |
|---------------------------------------|--|
| Chemical stability                    | : The product is stable.   |
| Possibility of hazardous<br>reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.                      |
| Conditions to avoid                   | : No specific data.  |
| Incompatible materials                | : No specific data.  |
| Hazardous decomposition products      | : Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

## Section 11. Toxicological information

#### Information on toxicological effects

Acute toxicity

Not available.

#### Irritation/Corrosion

Not available.

#### **Sensitization**

Not available.

#### **Mutagenicity**

Not available.

#### **Carcinogenicity**

Not available.

#### Reproductive toxicity

Not available.

#### **Teratogenicity**

Not available.

#### Specific target organ toxicity (single exposure)

Not available.

#### Specific target organ toxicity (repeated exposure) Not available.

#### Aspiration hazard

Not available.

#### Information on the likely : Not available.

routes of exposure

#### ....

#### Potential acute health effects

| Date of issue/Date of revision | : 5/31/2017 Date of previous issue : 7/16/2015      |  |  |
|--------------------------------|---|--|--|
| Ingestion                      | : No specific data.                                 |  |  |
| Skin contact                   | : No specific data.                                 |  |  |
| Inhalation                     | : No specific data.                                 |  |  |
| Eye contact                    | : No specific data.                                 |  |  |
| Symptoms related to the p      | hysical, chemical and toxicological characteristics |  |  |
| Ingestion                      | : No known significant effects or critical hazards. |  |  |
| Skin contact                   | : No known significant effects or critical hazards. |  |  |
| Inhalation                     | : No known significant effects or critical hazards. |  |  |
| Eye contact                    | : No known significant effects or critical hazards. |  |  |

## Section 11. Toxicological information

Delayed and immediate effects and also chronic effects from short and long term exposure

| Short term exposure            | -   |
|--------------------------------|---|
| Potential immediate effects    | : Not available.                                    |
| Potential delayed effects      | : Not available.                                    |
| <u>Long term exposure</u>      |   |
| Potential immediate<br>effects | : Not available.                                    |
| Potential delayed effects      | : Not available.                                    |
| Potential chronic health eff   | <u>ects</u>   |
| Not available.                 |   |
| General                        | : No known significant effects or critical hazards. |
| Carcinogenicity                | : No known significant effects or critical hazards. |
| Mutagenicity                   | : No known significant effects or critical hazards. |
| Teratogenicity                 | : No known significant effects or critical hazards. |
| <b>Developmental effects</b>   | : No known significant effects or critical hazards. |
| Fertility effects              | : No known significant effects or critical hazards. |
| Numerical measures of toxic    | <u>ity</u>  |
| Acute toxicity estimates       |   |
| Not available.                 |   |
|                                |   |

### 12. Ecological information

#### **Toxicity**

Not available.

#### Persistence and degradability

Not available.

#### **Bioaccumulative potential**

Not available.

# Mobility in soil Soil/water partition : Not available. coefficient (Koc) : No known significant effects or critical hazards.

## 13. Disposal considerations

Disposal methods : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Disposal should be in accordance with applicable regional, national and local laws and regulations. Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees.

Hazardous Material Information System (U.S.A.)

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings and the associated label are not required on MSDSs or products leaving a facility under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered trademark and service mark of the American Coatings Association, Inc.

The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS® Implementation Manual.

Copyright ©2001, National Fire Protection Association, Quincy, MA 02269. This warning system is intended to be interpreted and applied only by properly trained individuals to identify fire, health and reactivity hazards of chemicals. The user is referred to certain limited number of chemicals with recommended classifications in NFPA 49 and NFPA 325, which would be used as a guideline only. Whether the chemicals are classified by NFPA or not, anyone using the 704 systems to classify chemicals does so at their own risk.
